

REMARKS

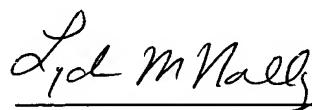

The specification has been amended with respect to the continuity data. Specifically, application 09/964,025 has been allowed as United States Patent No. 6,686,347 and such is now indicated.

Claims 1-5, 19, 21, 22, 29, 31 and 32 have been rejected under 35 U.S.C. § 101 and § 112, first paragraph. Claims 5, 19, 21, 22 have been cancelled. Claims 1-4, 29, 31 and 32 have been amended to recite method of treatment claims to conform to proper US claim practice. Applicants respectfully submit that these amendments overcome the rejections under § 101 and § 112, first paragraph, which rejections should be withdrawn.

Claims 1-32 have been rejected under the judicially created doctrine of double patenting over claims 1-32 of United States Patent No. 6,686,347 which is the parent of the present application. To overcome this rejection, submitted herewith is a terminal disclaimer.

Applicants respectfully submit that the present case is in condition for allowance, which action is earnestly solicited.

Respectfully submitted,

Lydia T. McNally
Attorney for Applicants
